

**SAFETY DATA SHEET**

**SECTION 1 IDENTIFICATION OF THE SUBSTANCE/PREPARATION AND OF THE COMPANY/UNDERTAKING**

Product Name: Ariosio™ Filtration Media (All Grades are listed at the end of the MSDS)

Manufacturer: Lydall - Rochester  
 P.O. Box 1960  
 Rochester, NH 03866  
 Telephone Number: 1-603-332-4600/4605  
 Fax Number: 1-603-332-9602  
 Email: info@lydall.com

Product Use: Filtration Applications

Date of Last Revision: November 30, 2009

**SECTION 2 HAZARDS IDENTIFICATION**

White, odorless solid.

**Emergency Overview:** Warning! May form combustible dust concentrations in air during processing. Product dust may be irritating to eyes, skin and respiratory system.

**US OSHA Hazard Classification:** Hazardous (exposure limit, carcinogen based on the presence of titanium dioxide – see Section 11 for additional information)

**EU Preparation Classification (1999/45/EC):** Manufactured Article (Dust generated from processing – Not a dangerous preparation)

**SECTION 3 COMPOSITION INFORMATION ON INGREDIENTS**

<b>Ingredient</b>	<b>CAS No./EINECS No.</b>	<b>Percent</b>	<b>EC Substance Classification (67/548/EEC)</b>
Polyethylene Film	9002-88-4	10-30	Not classified as dangerous
Backer – may contain: Chopped continuous strand fiberglass (> 5 microns in diameter) Or Polyester Or Polypropylene	65997-17-3 / 266-046-0  25038-59-9  9003-07-0	65-88	Not classified as dangerous
Polymer adhesive	Proprietary	1-5	Not classified as dangerous
Titanium Dioxide	13463-67-7 / 236-675-5	0-<1	Not classified as dangerous

Refer to Section 16 for Full Text of EU Classes and R Phrases

## SECTION 4 FIRST AID MEASURES

**Eye Contact:** Do not rub your eyes. Dust particles may cause abrasive eye injury. Flush eyes with water, holding the eyelids apart for several minutes. Get medical attention if irritation persists.

**Skin Contact:** Do not rub or scratch. Rinse exposed skin with cold water then wash skin with soap and water. Do not use hot water as that opens skin pores and may increase fiber penetration and irritation. Remove contaminated clothing and launder before re-use. Get medical attention if irritation persists.

**Ingestion:** If small quantities are swallowed, rinse out mouth with water. Drink plenty of water to help reduce irritation. If large amounts are swallowed or if irritation or discomfort occurs, get medical attention.

**Inhalation:** Remove victim to fresh air. Drink water to clear throat and blow nose to remove dust. Get medical attention if irritation persists.

## SECTION 5 FIRE FIGHTING PROCEDURES

**Extinguishing Media:** Use water, water fog, carbon dioxide, foam or dry chemical.

**Firefighting Procedures:** Firefighters should wear full emergency equipment and NIOSH approved positive pressure self-contained breathing apparatus for all fires involving chemical products.

**Unusual Fire/Explosion Hazards:** Dust generated in cutting or other processing of this material may present a potential fire and explosion hazard if suspended in air at high concentrations. Settled dust presents a fire hazard. Resuspension of the dust into the air by vibration, traffic, material handling, etc. in high concentrations in the presence of an ignition source could result in a dust explosion. Minimize the generation and accumulation of dust.

**Hazardous Products of Combustion:** Combustion of polymers may generate oxides of carbon and nitrogen and hydrocarbons.

## SECTION 6 ACCIDENTAL RELEASE MEASURES

**Accidental Release Measures:** Wear appropriate protective clothing and equipment (see section 8). Pick up material and place into a container for disposal. If dust is present, wet down and collect in a manner to minimize the generation of airborne dusts or vacuum with a high efficiency vacuum cleaner. . If a vacuum is used, explosion proof equipment is required. Nonsparking tools should be used. Dust deposits should not be allowed to accumulate on surfaces, as these may form an explosive mixture if they are released into the atmosphere in sufficient concentrations. Avoid dispersal of dust in the air (i.e., clearing dust surfaces with compressed air.).

**Personal Precautions:** Avoid contact with skin, eyes or clothing.

**Environmental Precautions:** None known.

## SECTION 7 HANDLING AND STORAGE

**Handling:** Avoid contact with eyes, skin and clothing. Avoid creating and breathing dusts. Wear protective clothing and equipment as described in Section 8. Use only with adequate ventilation. Do not eat, drink or smoke when using this material. Launder contaminated clothing before re-use. Wash thoroughly with soap and water after handling. Minimize the generation and accumulation of dust. Keep dust away from open flames, hot surfaces and sources of ignition. Follow good housekeeping practices to keep surfaces, including areas overhead such as piping, drop ceilings, ductwork, etc. free from settled dust. . Dry powders can build static electricity charges when subjected to friction of transfer and in mixing operations. Provide adequate precautions, such as electrical grounding and bonding, or inert atmospheres.

Empty containers retain product residues and can be hazardous. Follow all MSDS precautions when handling empty containers.

**Storage:** Store in a dry, well ventilated area.

**SECTION 8 EXPOSURE CONTROLE/PERSONAL PROTECTION**

**Occupational Exposure Limits:**

Polyethylene Film (as PNOC)	5 mg/m3 (respirable) 15 mg/m3 (total dust) TWA OSHA PEL
Chopped continuous strand fiberglass (> 5 microns in diameter)	5 mg/m3 (respirable) 15 mg/m3 (total dust) TWA OSHA PEL, 1 f/cc TWA OSHA HSPP* 5 mg/m3 inhalable or 1 f/cc TWA ACGIH TLV 5 mg/m3 or 2 fibre/mL TWA UK OEL 1 fibre.cm-3 VME France 0.25 respirable fibers/mL Germany
Polyester (as PNOC)	5 mg/m3 (respirable) 15 mg/m3 (total dust) TWA OSHA PEL
Polypropylene (as PNOC)	5 mg/m3 (respirable) 15 mg/m3 (total dust) TWA OSHA PEL
Polymer adhesive (as PNOC)	5 mg/m3 (respirable) 15 mg/m3 (total dust) TWA OSHA PEL
Titanium Dioxide	15 mg/m3 (total dust) TWA OSHA PEL 10 mg/m3 TWA ACGIH TLV 10 mg/m3 VME France 4 mg/m3 (respirable) 10 mg/m3 (total dust) TWA UK OEL

PNOC = Particulates not otherwise classified

Note: If not listed above, refer to local regulations for specific country exposure limits

**Engineering Controls:** Use with adequate local exhaust ventilation to minimize exposures. Provide local exhaust ventilation where product is cut or processed in a manner that generates dust. It is recommended that all dust control equipment such as local exhaust ventilation and material transport systems involved in handling this product contain explosion relief vents or an explosion suppression system or an oxygen deficient environment. Ensure that dust handling systems (such as exhaust ducts, dust collectors, vessels and processing equipment) are designed in a manner to prevent the escape of dust into the work area (i.e. there is no leakage from the equipment). Use only appropriately classified electrical equipment and powered industrial trucks.

**Personal Protective Equipment:**

**Eye Protection:** Wear safety glasses with side shields or dust proof goggles.

**Skin Protection:** Wear protective gloves to minimize skin contact. Barrier creams may be useful in reducing irritation.

**Respiratory Protection:** If the occupational exposure limits are exceeded or irritation is experienced, wear an approved particulate respirator. Selection of respiratory protection depends on the contaminant type, form and concentration. Select and use in accordance with all applicable regulations and good Industrial Hygiene practice.

**Other Protective Clothing or Equipment:** Clothing with long sleeves and pants should be worn to avoid skin contact. Washing facilities should be available in the work area. Work clothing should be laundered separately from normal clothing.

**SECTION 9 PHYSICAL AND CHEMICAL PROPERTIES**

Appearance and Odor: White odorless solid.

Boiling Point: Not applicable	Melting Point: >100°C
VOC Content: Not applicable	Specific Gravity: Not determined
Solubility in Water: Insoluble	pH: Not applicable
Vapor Pressure (mmHg): Not applicable	Vapor Density: Not applicable
Evaporation Rate: Not applicable	Viscosity: Not applicable
% Volatile by Volume: 0%	Flashpoint: None
Flammable Limits in Air: Not applicable	Autoignition Temperature: Not applicable

## SECTION 10 STABILITY AND REACTIVITY

**Stability:** Stable

**Conditions to Avoid:** Avoid dust formation.

**Incompatibility with Other Materials:** Avoid strong acids and oxidizers.

**Hazardous Decomposition Products:** Thermal decomposition of polymers will generate oxides of carbon and nitrogen and hydrocarbons.

**Hazardous Polymerization:** Will not occur.

## SECTION 11 TOXICOLOGICAL INFORMATION

### Potential Health Effects:

**Eyes:** Dust may cause mechanical irritation and possible injury.

**Skin:** Dust may cause mechanical irritation.

**Ingestion:** May cause irritation of the mouth and intestinal tract.

**Inhalation:** Dust may cause nose, throat and upper respiratory tract irritation. Symptoms include coughing, sneezing and scratchy throat.

**Chronic Health Effects:** None known.

**Carcinogenicity:** Titanium dioxide is classified by IARC as a group 2B carcinogen, possibly carcinogenic to humans. The titanium dioxide in this product is bound in a polymer matrix so no exposure occurs during normal use and handling. Continuous filament fiberglass is not classified as a carcinogen by OSHA, IARC, NTP, ACGIH or the EU Dangerous Substances Directive. None of the other components is classified as a carcinogen by IARC, NTP, ACGIH, OSHA or the EU Dangerous Substances Directive.

**Medical Conditions Aggravated by Exposure:** Individuals with pre-existing skin and respiratory disorders may be at increased risk from exposure.

**Acute Toxicity Data:** No specific data is available

## SECTION 12 ECOLOGICAL INFORMATION

No data available. This material is not expected to be toxic to plants or aquatic organisms.

## SECTION 13 DISPOSAL CONSIDERATIONS

Dispose in accordance with national and local regulations.

## SECTION 14 TRANSPORT INFORMATION

This material is not regulated as a hazardous material or dangerous good by US DOT, IMDG, IATA/ICAO, ADR/RID or TDG.

## SECTION 15 REGULATORY INFORMATION

### U.S. FEDERAL REGULATIONS:

**CERCLA:** This product is not subject to CERCLA reporting requirements. Many states have more stringent release reporting requirements. Report spills required under federal, state and local regulations.

### SARA TITLE III:

**Hazard Category For Section 311/312:** This product is a manufactured article and not subject to reporting.

**Section 313 Toxic Chemicals:** This product contains the following chemicals subject to Annual Release Reporting Requirements Under SARA Title III, Section 313 (40 CFR 372): None

**Section 302 Extremely Hazardous Substances (TPQ):** None

**US Toxic Substances Control Act Inventory (TSCA):** This product is an article and not subject to TSCA.

#### U.S. STATE REGULATIONS

**California Proposition 65:** This product may contain trace amounts of formaldehyde, acrylamide, acetaldehyde and n-methylolacrylamide which are known to the State of California to cause cancer:

#### INTERNATIONAL REGULATIONS:

**EU Labeling:** Finished product is an article and no labelling is required.

**EU Chemical Inventory (EINECS)/REACH:** This product is considered an article under EINECS and REACH.

**RoHS (Restriction on the Use of Certain Hazardous Substances in Electrical and Electronic Equipment Regulations):** This product is RoHS compliant.

**Australian Inventory of Chemical Substances:** This product is an article and not subject to chemical notification requirements.

**China Inventory of Existing Chemicals and Chemical Substances:** This product is an article and not subject to chemical notification requirements.

**Japanese Existing and New Chemical Substances:** This product is an article and not subject to chemical notification requirements.

**Korean Existing Chemicals List:** This product is an article and not subject to chemical notification requirements.

**Philippine Inventory of Chemicals and Chemical Substances:** This product is an article and not subject to chemical notification requirements.

**Canadian CEPA New Chemical Notification:** This product is an article and not subject to new chemical notification.

**Canadian WHMIS:** If dust is generated in processing this dust would be classified as Class D-2-A (eye, skin and respiratory irritant, carcinogen)

**New Zealand:** This product is an article and not subject to new chemical notification.

### SECTION 16 OTHER INFORMATION

Revision Date: November 30, 2009

Revision Note: Sections 2, 6, 7, 8, 16 (added OSHA recommended Combustible Dust warning information.)

Refer to NFPA 654, Standard for the Prevention of Fire and Dust Explosions from the Manufacturing, Processing, and handling of Combustible Particulate Solids, for safe handling.

**EU Classes and Risk Phrases for Reference (See Sections 2 and 3):**

None
